RAZOR RV ACCESSORIES

Razor RV Accessories are one of the largest distributors of caravan accessories and hardware in Australia. We are heavily involved in not only supplying to some of the largest Caravan Manufacturers, but we also work nationally with our carefully selected team of interstate distributors and professional installers.

Over the years we have attended many foreign and domestic trade shows to get a better understanding of where the industry is heading and what new products can be brought in, to further develop and enhance Australian Vans.

Inspired by what was being produced in Europe and Asia, Razor RV have brought new ideas, concepts and unseen décor and gadgets to the Australian Caravan and RV Market.

Throughout the years, Razor RV have earned a fantastic reputation in the caravan industry with not only its existing manufacturing customer base but also among Dealerships and caravan owners. Our customers have full confidence in us to always supply all type of products and to offer new designs that will give their business that cutting edge they need in this highly competitive market.

RV WI-FI 5G

RV WI-FI 5G Wi-Fi 6 Portable Caravan WI-FI Internet

Stay connected while travelling with RV WI-FI 5G. Specifically designed for the Rv lifestyle, this router delivers fast, stable internet. Enjoy the luxury of having reliable Wi-Fi internet while travelling with the RV WI-FI 5G.

Key Features:

- Optimized for RVs: Designed for recreational vehicles, ensuring the best performance for your mobile lifestyle.
- External Antenna for better range: Enjoy fewer interruptions and improved connectivity with a high-performance antenna that extends range to the cel towers and reduces interference.
- 12V Power Connection: Forget about battery issues – just plug it in and you're set. The RV WI-FI 5G runs off your vehicle's 12V power, keeping you connected without worrying about draining batteries.
- Freedom of Choice: Not locked into any specific provider –pick the best deal based on price or range.
- Unlimited Users: Invite friends, family, or fellow travellers to join in – there's no limit to the number of devices you can connect.
- In-Car Entertainment: Stream movies, music, and more while on the move.
- Excellent Range: Keep your connection strong both inside your caravan and out in the surrounding area.
- 4G/5G/WI-FI External Antenna: Enjoy superior coverage with a versatile antenna that ensures you have a strong signal.
- MIMO Router Technology: The RV WI-FI 5G is a fully enabled MIMO router, optimizing internet performance and speed.
- Enhanced 4G & 5G Capability: Take advantage of the latest technology for fast and reliable connectivity.
- 5G Ready: Ready for the future of mobile internet – faster speeds and less congestion.
- Connect with Starlink: Easily integrate with Starlink through our DishyDock System for even more internet options when you're off the beaten path.
- Note: RV WI-FI 5G operates on the cel tower network.

2 year warranty

RV WI-FI DishyDock Wi-Fi 6 Router

Stay Seamlessly Connected with the RV WI-FI DishyDock Router – Your Ultimate Travel Companion
Introducing the RV WI-FI DishyDock Router, designed for modern RV travelers who demand reliable, hassle-free internet wherever they go. No more packing and unpacking your Starlink router – with the DishyDock Router inconjunction with the DishyDock System, your device stays securely mounted in your RV, ready to deliver powerful connectivity with the touch of a button.

Key Features:

- Effortless Starlink Integration: Designed to work seamlessly with Starlink's satellite internet, the DishyDock Router provides superior signal strength and enhanced Wi-Fi range for your RV, ensuring smooth connectivity while you're on the road.
- Secure Mounting System: Keep your router neatly stowed away in a cupboard or your preferred location within the RV, eliminating clutter and protecting your device from the rigors of travel.
- Convenient Power System: Equipped with a 12V power system, the DishyDock Router powers up automatically – no need to worry about batteries or additional setup when you switch between travel and setup mode.
- Cost-Effective: One monthly subscription fee to Starlink or pause your subscription while not travelling.

One System, Maximum Connectivity – With the RV WI-FI DishyDock Router, you'll have a reliable, efficient system to connect all your smart devices, whether you're traveling or setting up camp. Paired with the DishyDock Power and Ports, this is a seamless Starlink Integration.

RV WI-FI DISHYDOCK POWER

Power Up Your Connectivity with RV WI-FI DishyDock Power.

The RV WI-FI DishyDock Power is the essential power converter that keeps your Starlink antenna running smoothly while you're on the road. Designed to work directly with your RV's 12V battery system, this compact and efficient power solution ensures seamless internet access, even in the most remote locations.

Key Features:

- 12V Power Conversion: DishyDock Power converts your RV's 12V battery system to power your Starlink antenna, so you stay connected without the need for extra equipment.
- Efficient Power Usage: With a lower power draw than most similar products, DishyDock Power ensures that your energy use stays minimal, allowing you to extend your battery life for longer trips.
- No Inverter Needed: Unlike other systems that require a bulky inverter, DishyDock Power links directly to your RV's 12V battery, simplifying your setup and reducing the need for extra gear.
- Seamless Connectivity on the Move: DishyDock Power provides uninterrupted internet access wherever your RV takes you, whether you're parked in the middle of nature or on the go (as long as clear line of sight to the sky is available).
- Compact and Reliable: Small yet powerful, DishyDock Power fits seamlessly into your RV setup, working perfectly with the DishyDock Router or paired with our RV WI-FI 4G or RV WI-FI 5G Routers.

Pair it with the Perfect Router – Choose the router that best fits your needs from our exceptional range of routers. Whether you go with the RV WI-FI DishyDock Router, RV WI-FI 4G, or RV WI-FI 5G Router, the DishyDock Power ensures you have the power to stay connected, no matter where your adventures take you.

RV WI-FI STARLINK MINI SOCKET

SIMPLE STARLINK INTEGRATION

for Starlink MINI

OEM Fitment Spec Sheet Product Overview.
The RV WIFI Starlink MINI Compatible External Wall Socket is a weatherproof external connection point designed for Caravans and Motorhome manufactures wanting to offer a clean, economic, power efficient, factory install solution for providing internet connectivity.

This unit enables customers to power their Starlink MINI, through a secure external wall socket - no inverter power required.

Key Manufacture Benefits

- Factory-Fit finish - clean external mount with professional appearance Fast installation - production line friendly installation
- No inverter required - simple 12V setup
- Efficient power usage -when on and off
- Supports Starlink MINI 15m cable - no added extras for the end user
- Reduced complexity - eliminates multiple product installations

Compatibility

- Starlink Compatible: Starlink MINI
  (Designed specifically for Starlink MINI cable connection and use case).

Electrical / Power

- Operation Current: 3-6 amps (depending on Starlink load conditions) Power draw: 26.3% more efficient under typical load. Negligible draw when dish not in use.
- Designed in Australia for Australian conditions

Installation Summary:

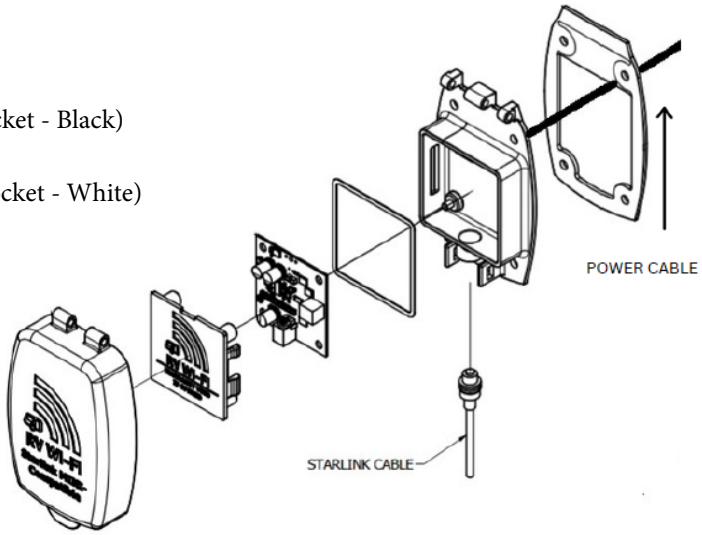

- Mount socket externally to caravan wall. Mounting holes inside main cover
- Connect to suitable internal power supply (per Manufacturers electrical standard)
- Plug and Play Ready

Dimensions:

Length: 123mm
Width: 88mm
Height: 35mm
Weight: 175gms
